

Do you think you have found a stray cat?

Use our cat collar to help find the owner.

This is a great way to check if the cat you are concerned about has a home, and put the owners mind at rest if it keeps disappearing!

Before using the collar, try not to let the cat into your home and don't feed it for 48 hours. This will encourage it to find it's way back to where it might be known. A cat in reasonable condition won't be harmed by a lack of food for this time.

Instructions:

Print out this template.

Cut out the collar along the dotted line.

Place the collar around the cats neck, overlap the ends so it fits snugly and sellotape the ends. You should be able to comfortably fit 2 fingers between the collar and the cats neck. If there's no response in 48 hours, please contact the Rescue.

This cat has been visiting my property and I wonder if it may be a stray. Please contact me if it belongs to you. Tel: _____
